

PCI Consultation Request Form

PCI Compliance is a BIG DEAL!! Don't be offended by this new requirement. All businesses excepting credit cards must show themselves to be PCI Compliant. We are very knowledgeable on this topic, and welcome new and current merchants to allow us to advise, and assist you in this process of selecting the best PCI Compliance service provider, and assistance with selection of the proper questionnaire. Non compliance carries with it huge fines that are driving merchants out of business. You want to be PCI Compliant. It shows your customers you have taken all precautions to protect their credit card information. Unfortunately PCI Compliance does create new and sometimes expensive service fees, but essentially it's the NEW LAW on the books for all businesses accepting credit cards. Merchant's should select a PCI vendor that can offer consultation, breach coverage insurance, documentation assistance, and customer support for all the services offered Understanding of the compliance requirement is essential, and just another business cost that must be taken into consideration. I understand that this is a FREE no obligation service.
